Avoiding Long Lines at the Bank

Tired of waiting in line to cash a check or deposit your paycheck? There are several actions you can take to avoid lines at Denison State Bank locations:

Get Direct Deposit

If your employer offers direct deposit of your paycheck, sign up today. Your funds will be automatically deposited into the bank account of your choice. Direct Deposit is by far the safest way to deposit your money.

Use a Debit/ATM card

Enjoy 24-hour access to your checking or savings account by using the Denison State Bank ATMs or any networked ATM around the world.

Use Online Banking/Telebanking For Account Inquiry and Funds Transfers

To inquire on your balance and account postings, or to transfer funds between DSB accounts, use DSB Online internet banking or DSB Telebanking.

Use Other Lanes

Tellers can service multiple drive-up lanes, so pull into vacant lanes if the first lane is occupied.

Be Prepared

Have your transaction ready to go before entering a teller line or drive-up lane. Make sure checks are endorsed and deposit tickets are filled out completely. The more you're prepared, the quicker we can serve you.
