

April 4, 2016

TO: DSBconnect online/mobile users,

DSBconnect online/mobile banking logins at Denison State Bank will be unavailable on Tuesday, April 5, from 12:00 noon-4:00 p.m. CST, approximately. This is so we can officially change the domain name of our web site to 'dsbks.com.' For the past several years, even though the bank has branded its site with 'dsbks,' site users were automatically re-directed to the older page names of 'denisonstatebankhb.com'. Once this domain move is completed on Tuesday, all DSB web site pages will consistently use the 'dsbks' naming.

Here are the two ways this will impact you after Tuesday:

1. On your next browser login (not mobile banking app) to www.dsbks.com, you will be prompted to receive and enter a One Time Passcode, which will be called or emailed to you, based on your settings. A code must be entered in order to make your first browser login after completion on Tuesday.
2. If you have any DSB web site pages bookmarked on your browser, they will no longer work after Tuesday. You will need to directly access the pages you want on the www.dsbks.com site (use the "Search" box at top for assistance) and re-bookmark them after Tuesday's completion. This includes the home page of www.dsbks.com where the online login box is.

I will send you another email after the domain move is completed Tuesday.

Matt Taylor
